# ABOUT US

## IDEATION – CREATION – CONSULTANCY

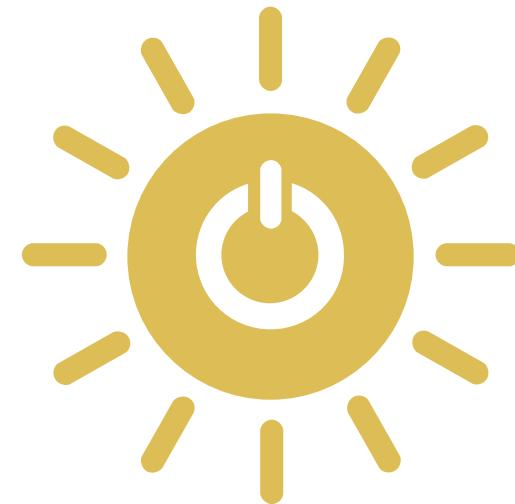

Exploreit is a Youth-oriented organization working for sustainable development and changes in society. We target solution-based climate awareness and action, by integrating all the stakeholders of our society into one common platform.

# Our Working Domains

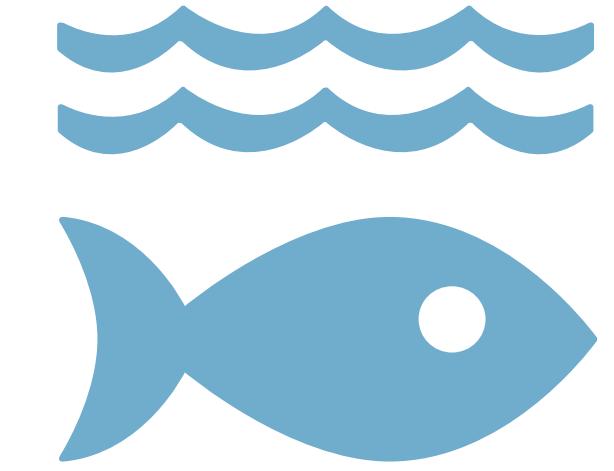

ExploreiT aims to target action-based initiatives including all five major domains

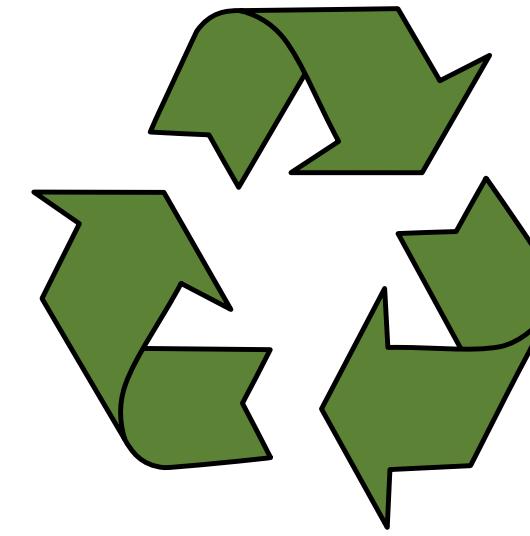

AIR

ENERGY

WATER

WASTE

BIODIVERSITY

A close-up photograph showing a group of diverse hands stacked together in a circular pattern. The hands belong to people of various skin tones, including white, black, and brown. They are resting on a surface that appears to be a table with some papers and charts on it. The lighting is warm and focused on the hands, creating a sense of unity and teamwork.

# Our Collaborations

# OUR PARTNERS AND COLLABORATORS

Over the last few years, ExploreiT has collaborated with numerous partners.

## Pune students come together to free the tree

Students who participated in the cause

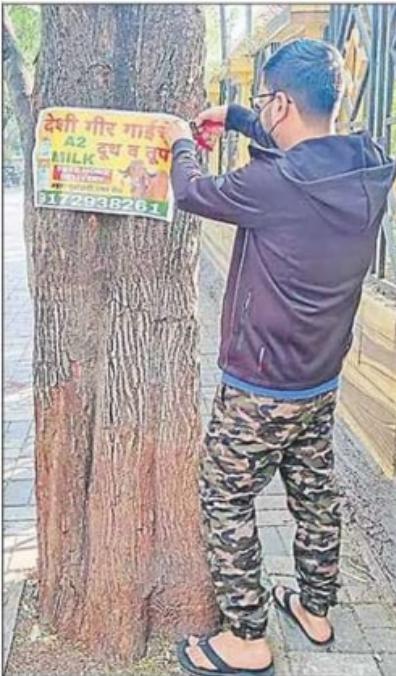

Vinay MR Mishra

vinay.mishra@htdigital.in

A collective of 100 students from the Symbiosis Centre for Management Studies, Pune, gathered for a one-of-its-kind initiative, called Free The Tree Plog-a-thon on Saturday, which aimed at eliminating visual pollution from trees. Sathy Natarajan, an environment aficionado, hosted a session addressing the students on the Trees Act of Maharashtra. The students then took to the streets of Viman Nagar, removing posters and unwanted boards from trees. The drive went on for two hours and by the end of it, the students got rid of over 600 illegal boards and hoardings nailed to trees.

Shivam Singh, founder of ExploreiT, led the initiative and has been doing this since the past four years. The 26-year-old Punekar says, "People are frustrated with these illegal hoardings and banners everywhere. Companies and businesses should shift to digital mode for their promotions and should not spoil the walls, trees and other public properties. We plan to conduct such events on a regular basis, so that the citizens can get rid of this visually polluted city."

Natarajan lauds the efforts taken by the team, and says, "In Pune, although we have greenery, the citizen to tree ratio is 1:3, while it should be 1:7. That is the awareness these kids need to have. So, it is really important to host such campaigns."
